*"Melissa and her staff are wonderful. They set us up with terrific nannies that are reliable and truly care! I would highly recommend them to anyone looking for short term or long term care for their children."*

*“Trying out a site like Care.com showed us how valuable A New England Nanny’s services are. Their staff knows each nanny and family well, so they are able to create a great match for both. They take on all the work of doing background and reference checks, and are very responsive. I won’t be using an online site again!”*
