### **A NEW ENGLAND NANNY LAUNCHES NEW ACCOUNT MANAGEMENT PLATFORM FOR FAMILIES AND CAREGIVERS**

CLIFTON PARK, NY – February 6, 2023 – A New England Nanny has implemented a new online platform for families and caregivers. The mobile-friendly platform, EngineHire, provides easy access for families to manage their accounts, including personal information, booking services, updating payment information, storing documents, and more.

For caregivers, they can update their schedules, view available positions, see their job histories, clock in and out for shifts, and more.

"Our families and caregivers have a simple, user-friendly experience with EngineHire," said Melissa Schoonmaker, Director of A New England Nanny. "Families can request care much quicker, and caregivers will be notified of open jobs much more efficiently."

Families and caregivers can access their accounts directly from the agency's website, 24/7 from any device.
